

Camp Asimov Safety Plan

Mission & Commitment to Safety

Camp Asimov is committed to providing a safe, inclusive, and supervised environment where students can explore robotics, engineering, coding, and creative problem solving. Safety is prioritized over speed, competition, or project completion.

Supervision & Staff Responsibilities

- All sessions are supervised by trained adults at all times.
- Staff actively monitor student behavior, workspace safety, and tool usage.
- Clear student-to-staff ratios are maintained.
- Students receive direct instruction before using equipment.

Workspace Safety

- Work areas are kept organized and free of hazards.
- Students must follow setup and cleanup procedures.
- Food and drinks are kept away from tools and electronics.
- Walkways and exits remain clear at all times.

Tool & Equipment Safety

- Students receive instruction before using tools or machines.
- Protective equipment is used when appropriate.
- Misuse of tools results in immediate removal from the activity.
- Only staff operate advanced or high-risk equipment.

Electronics & Robotics Safety

- All power sources are checked before use.
- Students are trained in safe wiring and battery handling.
- Robots are tested in designated zones only.
- Emergency shutdown procedures are explained to all students.

Behavior & Community Expectations

- Respectful behavior toward peers and staff is required.
- Horseplay, running, or unsafe conduct is prohibited.
- Students must follow staff instructions immediately when safety is involved.

Emergency Procedures

- Staff are trained to respond to injuries or emergencies.
- Emergency contacts are maintained for all participants.
- First aid supplies are available onsite.
- Evacuation routes are reviewed with students.
- Local emergency services are contacted when necessary.

Health & Wellness

- Students must report injuries or discomfort immediately.
- Breaks are encouraged to prevent fatigue.
- Hydration is promoted throughout the day.

Incident Reporting

Any injury, equipment malfunction, or safety concern is documented and reviewed. Parents/guardians are notified when appropriate.

Continuous Safety Improvement

Camp Asimov regularly reviews safety procedures, equipment, and supervision practices to ensure the highest standard of student protection.
